Profile

Innovative Software Engineer offering 3 years of experience working in healthcare. Seasoned with product development process from design to development. I design products that make impact in the real world.

Work Experience

Cerner Healthcare, Bangalore - Software Engineer

July 2019 – Present

- Coordinated in large-scale software developments, including testing features and correcting code.
- Worked on Quality Assurance of Revenue cycle Application under 6 months Quality assessment project.

Cerner Healthcare, Bangalore - Software Intern

Dec 2018 – Jun 2019

Created a Healthcare Record Maintenance System which focused on optimizing the patient results after registration. The project consisted of clerk module to retrieve patient details and the patient module to register details.

- Software Requirements for Frontend: ReactJS, HTML, CSS, ES6

Projects

Smart Investment Championship Event

I designed a **landing page** in web and mobile version for a championship event sponsored by Finin. The project aims at organizing a competition for students who bring great ideas of managing their finances and investing smartly.
