Profile

Innovative Product Designer offering current experience working in web3 and previous experience in healthcare product development process from design to development. I design products that make impact in the real world.

Work Experience

Capx Global, Bangalore - Product Designer

Feb 2022 – Present

- Coordinated in the product design life cycle of research, IA, wireframe and designing of Capx Crypto-Lend, Exchange and Governance app. Also worked on designing the UI for meta verse.
- Designed the apps in 6 different types of dimensions.

Tool used: Figma, Webflow, Notion, Slack, Monday.com

PFolio, Bangalore – Product Designer - Part time

Oct 2021 – Feb 2022

- Worked closely with the founder to design a no-code builder tool from scratch, designed 6 portfolio templates and launched their website on Product Hunt.

Design System used: Tailwind, Ant Design

Tool Used: Figma, Notion.

Cerner Healthcare, Bangalore - Software Engineer

July 2019 – Jan 2022

- Coordinated in large-scale software developments, including testing features and correcting code.
- Worked on Quality Assurance of Revenue cycle Application under 6 months Quality assessment project.

Cerner Healthcare, Bangalore - Software Intern

Dec 2018 – Jun 2019

Created a Healthcare Record Maintenance System which focused on optimising the patient results after registration. The project consisted of clerk module to retrieve patient details and the patient module to register details.

- Software Requirements for Frontend: ReactJs, HTML, CSS, ES6**

Projects

DesignCraft Digital Arts Masterclass – An EdTech Mobile App

I designed a **mobile app** to learn digital arts. The app aims at teaching different types of digital art forms by expert instructors from beginner level to advanced level. The app also features a community-based interaction to increase engagement among the users.

Tools used: Figma

User Research on an online fitness community - Fittr

I worked with a team of three designers and created a **user-research** based project on an online fitness-based community – fittr. The aim of this research was to understand the problems the users were facing and come out with some solutions which could help in improving of the experience.

Tools used: Figma, Whimsical

Smart Investment Championship Event

I designed a **landing page in web and mobile version** for a championship event sponsored by Finin. The project aims at organizing a competition for students who bring great ideas of managing their finances and investing smartly.

Tools used: Figma, Whimsical
